

Institutionalised cross-sector PLanning and dedicated capacity building to ENable small and medium-sized municipalities to develop and monitor sustainable strategies for the Transition to clean energy

PROJECT OBJECTIVES

Strengthening local authorities with sustainable strategies towards a clean energy transition through capacity building.

Transforming SMCTs towards Climate Neutrality: Innovative HISEP Methodology for Integrated Energy Planning and Sustainable Development.

Accelerating Clean Energy Transitions in Ambitious Regions through Innovative SMCT Pilots.

Enabling Clean Energy Planners: Training for Integrated Holistic Planning.

Fostering Sustainable Energy in your Cities: Standardized Case Studies & Modelling Tools.

Guidelines for Inclusive Clean Energy Transitions: Stakeholder-driven Planning.

Tracking Sustainable Clean Energy Transitions for Carbon-Neutral Cities.

Empowering Follower SMCTs with Innovative Clean Energy Strategies from PLENTY-LIFE Pilots.

EXPECTED RESULTS

- ✔ Supporting 7 small and medium cities and towns (SMCT) in building capacity for integrated energy planning
- ✔ Institutionalising a cross-sectoral innovative methodology – HISEP (a stakeholder-based holistic integrated spatial and energy planning) for Clean Energy Transition (CET)
- ✔ Supporting SMCTs (pilot, follower and observer cities) to deliver CET strategies and action plans, thus accelerating the transition towards a carbon-neutral future
- ✔ Leveraging the project impact by replicating HISEP methodology at national and EU levels

Co-funded by the European Union.
